Submission: Objection

Comments: I am writing to object to the proposal of the demolition of The Grange and the building of 22 new homes.

The Grange should be a protected building due to its age/ history and therefore should not be demolished.

In regards to the building of the 22 new homes, I object on the following grounds

The field in which the homes will be built is a beautiful area and has protected species living there. There are also deer that live in the area. The building will disturb these creatures and they potentially could loose their homes.

The local infrastructure won't be able.to cope with more people. The local primary schools and the high school are already over subscribed. The doctor surgery won't be able.to.cope either. Endon already has problems with the amount of traffic coming through it and this will only add to the issues.

The amount of air pollution will be increased with more cars on the road and will naturally have more.cars coming into.the area as the new families will have visitors. Clay Lake junction with the A53 is busy at the best of times and can be very dangerous. The entrance/ exit to the site will be on a blind bend which is dangerous for people wanting to leave the site.

I feel that this development will have detrimental effect not only on local residents but the surrounding area and wildlife.
