Submission: Objection

Comments: I would like to submit my objections to this application for the properties, on the grounds of safety, impact on the community facilities and ecology . The primary objection is after the completion of the building works, the volume of traffic accessing and leaving the site on an a busy road, adding to congestion on an already busy junction with the A53. Additionally school children and other pedestrians walk to and from Brown Edge along this road, currently the pavements run out just after the proposed site, so pedestrians already have to cross the road to continue up or down, the increased number of cars leaving and entering this site will only add to the danger to pedestrians. In addition my concerns include provision for Primary and High school places and GP facilities in the community. From an environmental point of view the existing flora and fauna will be lost to concrete and tarmac, resulting in the loss of habitat for existing wildlife, at a time when numerous species in the UK are in danger of being lost already.
