Submission: Objection

Comments: Clay Lake is already a very busy road and the development will increase traffic causing a greater risk of injury to the many high school students who walk up and down the road. The proposed access is on a dangerous spot on an inclining bend where many vehicles drive above the speed limit and it will increase the risk of traffic incidents. The development is not homogenous with the character of the area. The architectural style is drab and resembles every other new build development now littering much of our beautiful countryside. This proposal is excessive, if there is to be a development here it must be on a much smaller scale. I hope that common sense will prevail.
