Comments: I would like to state that I approve of this development. I am a resident of brown edge parish and use clay lake road daily as part of my work commute. I believe that after reading the supported documentation and reports, the housing meet the growing need for new housing whilst making as minimal an impact on the local environment. I strongly believe that more effort is needed for al parishes and local authorities to build new housing where possible. My two young daughters will within the next 20 years or so aspire to own or rent their own home. Of course there are housing pressures for the current cohort of young persons who aspire to do the same. I also believe there are government targets which need to be met for all local councils. Endon and brown edge are notorious for a NIMBY attitude toward any developments housing or otherwise. With this in mind, the average age of resident and percentage of properties housing young families are disproportionate. Housing prices in Endon are seriously inflated and the lack therof of affordable or available housing is leading to a lack of young families living in the area. This is reflecting negative in many aspects towards the future of Endon as a whole. Therefore in summary I strongly endorse the building of these homes.
