Re planning application SMD/2022/0245 land opposite 1 Dorian Way. Re route of footpath

I'm shocked to hear that our local footpath which is used by a vast amount of people including elderly and school children (keeping them safely away from the very busy A53 main road on their way to school), could be altered just to build a bungalow. We see that Mr Scarratt is persevering in building a bungalow regardless of the effects on the footpath or people that use it. By altering the course of the already narrow pathway it will take it closer to the sloping bank which leads to the Brook also this Brook rises to over 7 foot deep and flows very fast when we have a lot of rain, this causes flooding in our gardens along the meadows, In the last few months alone we have had our gardens flooded twice as the Brook burst its banks. More water coming from yet another building will create even more water to go into the brook causing more flooding along the meadows, I hope we will be taken into consideration here. Also by taking the footpath closer to the brook it makes it more dangerous as the bank slopes down towards the brook. All this will make it much more dangerous for all the people that use this path and I would have thought that safety is far more important than another building. I would hope the council will put the health and safety of the public before the interest of another building.

Yours Sincerely

Mr & Mrs Scragg
