Submission: Objection

Comments: The roads around Brown Edge and Endon are fit to burst. The schools are too full. Endon and Brown Edge are villages and they do not need more houses. The children of Endon High school especially those belonging to the village of Brown edge are already in danger due to the road. Merely lowering the speed limit has not protected the hoards of young teenagers walking home as cars are going by them at speeds as low as 40mph and you are suggesting we add nearly 44 more cars if not more? This is going to lead to a lot more traffic and dangers. It should never be forgotten the terrible decision made by this counsel to allow those houses on Kieth;s car park to be built leading to many dangerous situations and the house have never been sold and have been left to rot in the village. Why do we need 22 more house in an area with so many being left to rot? The area is also of great ecological importance in this countries fight against global warming and a great reason people want to move to areas like this. What will be the appeal of these areas when you have built over all of our beautiful land? Where will all of the nature and animals move too? This will cause an ecological disaster for ecosystem already been pushed to the fringes and will have a severe impact on the entire area. This has also been something that has been planned for years as that house has deliberately been left to fall into disrepair with the intention of building on the land with no regard or care for the local area. It needs to be stopped and immediately prevented for the sake of the whole community. The trees also need to be replaced.
