Submission: Objection

Comments: The proposed development of 22 new houses will increase the traffic in the area and increase the chances of accidents . The pull out from the development has limited visibility from one direction .There is a lot of wildlife in the area which the previous owner encouraged .There are three types of owls whose habitat has been reduced recently by tree felling of large mature diseased trees .There are wild deer living in the bordering woods for the last two years at least they have had young fawn there are also badger setts,foxes,bats .

Where are these animals going to go .The size of the proposed development is out of

Keeping with the area.
