Submission: Objection

Comments: We strongly object to this proposal. First the development involves the demolition of the Grange, a beautiful building the like of which will not be built again; the current standard of new house building is any guide. Secondly this development will greatly increase the amount of traffic in an area that is already heavily congested; especially around school times. There must be lots of alternative sites around the city for this type of development, why should it impinge on the existing community? An increase in traffic, pollution and noise in an area that is home to lots of wildlife is a retrograde step. We object.
