Comments: Transport Plan for Construction and Restoration:

1. Plan states 797 vehicles over a 28 week period. This means 1594 actual trips, as each vehicle enters and leaves the site. Peak days say 10 vehicles, @2 every hours
2. Plan states @6m road width measures 2 HGV can pass. UK Construction and Use Regs states max vehicle width is 2.5m. To pass and allow space at side of road this allows passing space @0.33m. @1 foot. This is not safe.
2. Plan states 'most' vehicles will come from A520. There are no suitable routes from A53 for any sustained HGV traffic, allowing for narrow and weak bridges, and lanes.
3. Plan states there are unmarked passing places, and field entrances. Plan fails to confirm a 16.5m HGV could safely use these. It is questionable this is workable in reality.
