Comments: Being a District?parish Councillor for Cheddleton for the past 20 years I was not going to comment on this application and leave it to the Officers to decide but having seen some of the objections that have no bearing on this application I felt the need to set the record straight this application is next to the only substation within many miles and the land is poor quality and only been used for grazing sheep which can still continue under these panels.I insisted it must be screened from Rownall Road which I believe is the case.Objections putting pictures of the Roaches and complaining about a commercial barn has nothing whatsoever to do with this application and is misleading .Lets stick to facts we need electricity!!
