Submission: Objection

Comments: I agree that additional housing is required but I feel that the proposed development of this estate would cause potential hazards for for an accident to occur. My reasons for commenting is that Clay Lake is already a very busy road and there are already several blind spots along this stretch of road without adding another one.

I understand that the existing entrance to the site is to be moved during the development but I still feel that the sight line for people travelling down Clay Lake from Brown Edge to Endon will not be sufficient to reduce potential accidents for both anyone turning right out of the proposed estate and those travelling down Clay Lake.

In addition, if I am reading the plans correctly, the new entrance is being moved up Clay Lake closer to where there is a requirement for walkers to cross Clay Lake in order to use existing pavements. I feel this will cause an increased potential hazard especially as this crossing is on a blind bend with no warning that people may be crossing the road.

Please consider the above when making a decision regarding this application and probably have a site meeting so you can see the situation yourselves.

Thank you.
