Submission: Objection

Comments: I object to the planning proposal on the basis of the impact on the environment and impact of the scenic view in the area, I also have concerns about the heavy traffic which will be generated during construction of the site. The narrow country lanes will become hazardous to the many users (cyclists, walkers, horse riders, and local road users). I'm sure we have many brown field sites that would be more suited to this type of development and the visual impact would not be detrimental to them.
