Submission: Objection

Comments: I am objecting to the proposed change of classification from C3a to C2 on the following grounds.

1. There is inadequate parking space at the property for the proposed registered institution which would compromise road safety for both drivers and pedestrians especially parents taking their children to school.

2. There has been no consultation or public notice that the residents are aware of.

3. I notice that the research the agent has done is mainly incorrect, this is regarding local amenities and emergency services. I strongly object to the inability of the proposal to even get basic local facts correct. There are an enormous amount of inadequacies that are submitted with the proposal. Public transport facts are incorrect, the statement regarding local hospital walk in is incorrect. The police, fire and ambulance services are extremely limited.
