Comments: After thoroughly reading through all of the documents presented, it is clear to see there are many inaccuracies and inconsistencies with the information provided. An example of one such inaccuracy, is the number of children at the home which states to be two and then later as four. Another example is the statement that the local community have been 'consulted' which we haven't been. We have only found out about this by chance from a neighbour in recent days! Therefore, I have grave concerns over the proposal of a children's home as the information is factually incorrect. If the correct research was conducted, it would be obvious this is not the correct location to situate a children's home. As other residents have correctly stated, there are limited transport links for staff or visitors, which will cause parking issues and increased driving hazards. The children's home is in close proximity (metres away) to a children's play area which is designated for very young children only. As the park is used by young children, and older children from the home (potentially having behavioural issues) could be at the park unsupervised at times, how is this risk managed? I therefore strongly object to the proposal of the children's home at 50 Coleridge Drive, Cheadle, Staffordshire.
