Submission: Support

Comments: St John's Church is adjacent to my property, we are in support of this application based on the retention of the facade remaining intact. It is noted vehicular access is not required, however the application states daily deliveries of timber will be made, and by its nature, product will be leaving the site. It is unclear how this will be achieved?

There is a gap in the wall adjacent to the houses on Mill Street which was used by residents accessing the Church, there are mature trees / shrubs on site which supports a wealth of wildlife, management of this area moving forwards needs to be determined should a supplementary application be submitted for vehicular access.
