Application Reference No. : SMD/2024/0055 Site Address: LAND SOUTH OF CELLARHEAD SUBSTATION AND WEST OF Rownall Road Wetley Rocks Staffordshire Comments by: Robert Bowler

Submission: Objection

Comments: As a resident that will be impacted as this proposal is on adjoining land I strongly object to this proposal due to:

Planning policy states that that only in special circumstances should anything be built on the Green belt.

The access diagram does not appear to meet up with the emergency access route - citing safety concerns.

The volume of Batteries to be placed at the site gives considerable risk to fire with recent reports on concerns of the hazards given off with also consideration to high levels of noise pollution.

It was stated in the House of Commons by local MP Dame Karen Bradley that small district councils need to have the appropriate expertise to look at those application. She also stated that when a large number of applications are made to adjoining land they should be considered as a whole rather than looked at individually.

This clearly needs further consultation with independent experts appointed by local or national government as matter that needs greater scrutiny.

Thank you for your time
