Submission: Support

Comments: We would like to lend our support to this project as we think that the development would be beneficial to the area and environment.

The benefit would be to bring existing buildings into useful service as against leaving them unused, falling into disrepair and harbouring vermin.

Environmentally there would be little disturbance as the buildings exist and so the work would be modification.

We feel that the advantages of this conversion far outweighs any disadvantages.

We therefore ask you to give favourable consideration to this planning application.
