Submission: Objection

Comments: We Strongly object to this application, the vast and cumulative, disproportionate size of the proposed site in the location of the 5 BESS sites and Huge solar Farm.

The harm and destruction to the landscape, the impact on the ecology, local wildlife, barn owls, curlews, deer, hares, foxes and bats. It also destroys Greenbelt which should be protecting at all costs. Visually this would be a eyesore to residents.

This obscene proposal will also have consequential effects on local tourism and heritage sites!

There would be a high risk of fire, which can lead to explosion, thermal runaway and toxic clouds!

We will also endure Noise and disruption while we try to enjoy our home!
