Comments: Nabb lane is at best a difficult lane to drive or walk along , at worst dangerous . The rural lane is narrow , one car wide and busy with few safe passing places . The T junction where Nabb lane joins the fast flowing major road from Denstone has poor visibility . Additional cars using this junction will be problematic and increase the risk of traffic jams and accidents . Roads around Alton become very busy with Alton towers traffic , with poor to non existent public transport, visitors will be dependent on using their individual cars adding further congestion and pollution within a honey pot area to the detriment of local residents .

In an area with plenty of existing holiday accommodation , adding further holiday lodges on a site with poor roads and poor public transport seems unnecessary .
