Submission: Objection

Comments: I wish to strongly object to this application. The agricultural barn has been used without the correct permission and as a glorified industrial unit for the last 18 months years contrary to this planning application (from Spring 2022) not the stated 4 years on the application, this is quite clear from the evidence the local residents have collated and submitted to yourselves. The HGVs that come and go on Rownall Road multiple times a day travel at such speed that it is quite frankly dangerous to drive on this part single track road. There has been numerous near misses and no consideration has been given to the local residents, walkers and horse riders before this building was illegally used as a industrial unit.

All of the statutory declarations that have been submitted with this application are completely compromised as they are all employees of the land owner, how can the Council possible take these into consideration when they show such bias. Staffordshire Moorlands Planning Committee need to remain impartial regarding this breach of planning and finally put an enforcement in place to cease all of the industrial activities.

It has become apparent in the last week that the land owner is removing all evidence that this agricultural barn is being used in such a massive industrial scale.

The Council must show that people can not just do as they please regardless of the consequences, action needs to be taken with regards to this.
