**Date:** 20 March 2024 18:18:15

---

I attached photograph to support objection just sent via Planning comment:

These are publicly available images, left is current on Google, right is currently available on Ordnance Survey.

While undated the comparison indicates substantial site expansion.

While the Moorlands website indicates a withdrawn Change of use request, there seems to be a lack of indication or request for this change of use.

That is until the withdrawn request from 2023. Why withdraw if you are doing it?

The Website does not indicate any agreement for this change of use.

Andrew Krawiecki
