Comments by Zoe Whitehurst of 2 Bridge End Leek

2022-2683-06A-CEMP

I strongly object to the submitted proposals on the following grounds

There isn't enough parking space allocated for the residents, there are at least 14 cars on the track which does not include visitors, when football or hockey matches are on at the weekend the bottom of the track gets very congested.

Also the residents turn around at the top of the track and this is carefully managed. How will we turn around with the new proposals? Are we expected to go all the way to the new development to turn around?

There are no proposed street lights to be added or pavements with the extra traffic on the track this could be very dangerous. We are all considerate drivers, however this would change with a large volume of traffic getting from A to B.

There would also be a huge loss to heritage on the track, our house has got an original step outside of the original gate posts and leading up to this are the original cobbles. The proposals says that the track is to be tarmac and our step will be gone as this is where a proposed parking space is.

The track proposals have not been thought of for the residents, or consulted with the residents who have maintained this lovely old track for several several years and it would be so wrong to let go of one of the last original tracks of Leek
