Submission: Objection

Comments: I strongly object to this development on the following basis:

- the development is happening in a Green Belt area and area of natural beauty. This development will have a significant adverse affect on the natural beauty of the area and the wildlife that lives there
- As such the development is clearly not in line with any strategic move to promote tourism in the Staffordshire Moorland area
- the development is very large and will remove a significant area of farming land from agricultural use
- the disruption that the building of the farm must have on small country lanes unsuitable for large vehicles
- the sightlines in the area are such that the panels will be visible and such further reduce the attractiveness of the area

The council should represent the views of local residents (that include my 2 children) who are clearly not in support of this development and who will be adversely affected by it.
