Application N°

SMI/2024 0087.

Dear Sir/Madame,
Re the above application,
The previous tenants, only had one
Biomass boiler and as a result, the
yard was constantly in a cloud of
smoke. The new storage shed will
be below our property and the
wind again will blow smoke into
our yard, result unable to work in yard
or back garden, unable to open windows
and unable to put laundry out.

Most concerning is I have recently
been discharged from hospital due
to lung problems and do not wish
to repeat this experience.

Therefore if you are unable
to guarantee that we will be
free from smoke etc on my property
then No I will not be happy to
support this application.

Yours sincerely

M.

R Gardiner.
