Submission: Objection

Comments: I strongly object to the above application along with all other applications which have been submitted relating to the horrendous Solar farm which if passed will completely ruin our local area.

There is no need for all of these applications, they should all be refused end of.

We all know why these have been put in and that's money. The applicants concerned have no respect for the area whatsoever and are just wanting to make money. As usual, down to greed.

Apart from green belt being ruined, noise pollution will be an issue along with traffic congestion on single track country lanes. Also fire safety is a big issue which I believe hasn't been taken into account. Perhaps the applicants would like to have dangerous battery storage built on their doorstep.
