Submission: Support

Comments: As Ward Councillor I fully support this planning application.

Rudyard Memorial Institue is a unique and historic building that has been derelict for over twenty years and in re-purposing the building into two single story dwellings with extensions, enables it to be saved and conserved , which is appropriate as it lies within the Rudyard Conservation area.

I have no objection to the creation of two or more parking spaces as Lake road is a residential area with mixed housing of various dates that have garages and off road parking. Therefore, I do not feel that this is out of character or an unreasonable request. I note there is a Beech tree that overshadows the building and creating parking spaces may be detrimental to the tree however, other planting has been proposed in its place.
