Submission: Support

Comments: I would like to express my strongest possible support for this important application. As the nursery manager for Jackson's Nurseries, I know how fragile and perishable plants can be and the importance of maintaining the right temperature, light and moisture levels. Severe changes can cause widespread loss of crops in a short space of time, which can kill the plant stock that's essential to keep the business alive. Frost, hail storms, poly tunnel damage, failure of polytunnel heating systems and criminal damage often happens outside our business hours of 8:00am-4:30pm. I have relied on Roger Jackson, head of the business, to make sure the plants are protected 'out of hours' for many years. As Roger, at 65, looks to ease back into semi-retirement, I'm pleased his son Luke is stepping up to the plate to allow the business to continue to thrive. I fully support the application and feel the future success of the business relies on it. I would be very happy to discuss further if contacted.
