Submission: Objection

Comments: I wish to object to strongly object to this planning application on the basis of its unnecessary siting and intrusive nature through the continued growth of industrial operations in an area that is recognized throughout Staffordshire for its countryside's natural beauty.

The protection of our greenbelt was always given as a priority for this Council and its loss will be regretted for many years ahead. The impact on the landscape to the ecology, local wildlife will obviously be harmful and the visual impact unacceptable.

The size of this project and its cumulative considerations are totally disproportionate to the setting it is proposed to be sited.

We attract many visitors to our area through reputation and enjoyment, something we take for granted but choose to live in for that reason. This is being eroded at our cost and without our consent.
