Submission: Objection

Comments: Inform the Authority that you object to the Planning Application. SMD/2024/0142

One concern would be the roof terrace or flat roof as it's now been called. Still the same issues as my response on the SMD /2023/0018.

Second major concern is the road, it's narrow and on a blind bend. It's a busy road as it is and can't cope with the traffic that comes through. Sadly Someone is going to end up having an accident. Moving the parking and garden across the road makes this even more dangerous now meaning public will have to cross the road multiple times across their stay, carrying belongings, getting to their car or to the garden area crossing the road at all times of day. Children also need to be considered having to cross this road. Day light or not this is dangerous on this type of road.

Also on this road just below the chapel in the dip where the holiday makers would be making regular crossings, it floods all times of year but I'm sure the highway will be aware of this matter.

The land across the road that's been added to the property has a woods that houses a lot of Species. This woods is sadly one of few that is still here in Staffordshire Moorland. Moving cars and creating a garden area is only going to cause this to be devastated.

Your sincerely,

J.Lowe & J . Pennington
