Comments: For disclosure, I use this important community facility to grow my own fruit and vegetables in an environmentally friendly and sustainable manner - as do the majority of the users of the facility.

Whilst the current access and parking to the site is perfectly adequate for the small number of vehicles which attend the site, it is not ideal and the proposed new access and parking will, if passed, improve the situation significantly.

This will allow better on site parking, safer on site turning facilities, enabling cars to rejoin the main road facing forwards and much safer visibility for all vehicles with improved visibility splays.

Generally, the new landscaping will improve and enhance the aesthetic appearance of the site as part of the surrounding countryside.
