- ☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☒ Interested Party/Person Correspondence
- ☐ Other

YOUR COMMENTS ON THE CASE

I wish to support the submissions from the "save Bagnall and Rownall save our greenbelt "group but also wish to place my own objections. I have spent time recently doing my own research and now realise that not only are these schemes meant to make a small group of people a lot of money in the short term, but also that these panels do not actually work effectively in a climate such as ours. I'm sure that my findings have already been sent to you by other objectors. Many countries are now turning against these schemes and many schemes in the UK are being refused as we speak. Therefore I would see it as irresponsible for our precious greenbelt to be forsaken for a ruse geared towards money grabbing, over eager speculators who not only care more about money than the blot on the landscape it will create, the fire risk, the disruption to wildlife, the disruption, noise and pollution caused by the development and running of this scheme but also will not be around and care not a jot what would happen at the end of life of this scheme as they will all be dead, FACT!!,
