Comments: For a couple of years now i have been growing my own fruit and veg in the Poly Tunnel and have become part of a small community of growers that is continuing to expand in number. I have to say that the proposed planning for additional parking near the Poly Tunnel site would be very welcome and particularly when a number of growers are at the site at the same time as this would lesson the awkwardness of juggling around with cars. It would be much more visible for all the road users and much more practical exiting and entering. The landscaping of the site would also add visually for those on the site and those viewing the site from outside.
