Comments: i currently have plots within the polytunnel that I am using to grow fruit and vegetables. This is something that I love to do with my children. I feel that the children gain a lot of learning experience from this and gets them exploring the outdoors and wildlife i feel that the new parking will prevent parking on the road at peak times. The improved landscaping will improve the appearance of the site and area as a whole from inside and outside this site. This will also improve the practicality for entering/exiting when others are there also.
