Submission: Objection

Comments: Our house is probably the nearest property to this proposal of the dog compound. It will affect us with noise, traffic and light pollution. The junction at Caverswall Road and The Green is extremely busy and the additional traffic using the compound will consequently make the situation worse.

Considering the majority of the local people do not want or feel the need for this proposal and it is also the view of our local councillors, as there are other facilities close by.

The scout hut next to the proposal is used most days of the week, should any dog escape from the compound, this would propose a danger to children and adults entering and leaving the scout hut.

Many residents in Mill Close work shift work and I am sure they would not like to hear dogs barking from the compound which in turn would set other dogs in the area barking.

The neighbouring field has pedigree horses which have been there for a considerable time and the dogs in the compound would upset the horses and could cause a danger to the public and owner of the horses.

For these reasons we would like to object to this proposal as many other local residents also have.
