Submission: Objection

Comments: I strongly oppose this amended application because whilst the development has been scaled down slightly the fundamentals are still the same :- the impact on the environment through noise pollution, light pollution and volume of holiday makers will do nothing to enhance the value that this quiet area offers to wild life and the local population.

It is a quiet area that has been enjoyed by the local people of Cheadle for generations and that will all be destroyed by the volume of holiday makers that the developer requires to make this development a success.

Cherry Lane was never designed to accommodate this level of traffic and the exit from the lane into Oakamoor Road is difficult enough for the few residents already let alone with the additional multitude of holiday makers proposed. Similarly the exit from Cherry Lane onto Lockwood Road is only single lane and asking for trouble.

The developer has already shown little regard to the history of this beautiful grade 2 listed building and this development together with the proposed retirement village would certainly destroy the integrity of this fine building forever.

Please let the long term gain of this beautiful area succeed over the short term greed of this development.
