Submission: Objection

Comments: I have some worries, wood street is a very narrow street to its opening this poses an issue with an ev charging bay, already cars are dangerous when coming in our out of wood street and adding to that with cars turning into a little bay and pulling out of the bay is an issue.

My house is directly opposite the planed space which worries me as I have a child and this makes it dangerous because a car only needs to make one mistake and they could destroy my house or hurt my family, I'm opposed to this plan however a charging station could go in that space but I think it would be better to turn the space around, and have cars enter and leave onto the main road, this would mean dropping the curb on the pavement of the main road but would also mean it's safer.
