Submission: Objection

Comments: I object strongly the proposed plans to install 129,900 solar panes so close to our residential area. It's obscene that land owners will be making Huge returns while the residents will see their homes de-valued, In sort the few will be lining their pockets with no concern to others destroying the environment, the wildlife, Ecology, green belt just to name a few plus stopping people from coming into our area to wonder at the surroundings.
