Submission: Objection

Comments: The plans have already been thrown out within less than 12 months. This land has been proven to be Green/brown belt, have problems with mining. The houses are being built right at the bottom of my property, therefore there will be a lack of privacy as they will now be able to see in my house. We also have rights to water and electricity running through the land. The local council man Joe porter had pointed out all factors for why this was thrown out. This will have a negative impact on our house and will breach out septic tank piping therefore this would be an issue. I can find all the previous emails that were sent detailing all of this which would mean that we would always have legal rights to go into peoples gardens and dig it up. I can't believe this application has been allowed to be put forward again.
