Comments: The lack of an adequate sitting area in the new swimming pool area is very worrying. It will negatively affect parents who want to watch their children's progress through the swimming lessons. The area accommodated for this in the coffee area is not adequate.

A simple re-alignment of the pools would allow for seating areas within the swimming pool complex.

Rotation of both pools through 90° would allowed for the space of 2 potential seating areas. The largest would be for spectators. The smaller area could be used for administrative purposes / staging area for swimmers on days where there is a gala. This will be beneficial not only for schools using the facilities, but also for the local swimming club.

This has taken away some of the external seating, but I trust that the planners would appreciate this is a good thing as parents / spectators would be encouraged to use the internal seating where they can be a part of their child's progress & development and help / encourage where necessary.

It seems is not possible to attach any documents. Please email me to anaag3@yahoo.com so I can provide the drawings.
