

To S.M.D, Planning Officers,

Ref-No. SMD 2024-0147

18-May-2024

Would you please let me know, what days, they are allowed to open + what times also, the hedge on the roadside has just been torn up, hedges are not supposed to be cut even, in the breeding season. I know this because I have lived + farm around here for a very long time, + we're not allowed to cut hedges at this time,

What toilet facilities have they got, as there is no main ~~sewer~~ sewer around here, I am not on line so that's why I have to write to you,
