

Accommodation to be deeply embedded into the landscaping positioned so to create an organic feel to the area and provide remarkable views of the unique landscape from every plot

Units to have a variety of roof types and building forms to further enforce the organic nature of the development moving away from the typical holiday park.

Roofs, walls and floors all to exceed the requirements for energy performance.

Natural timber cladding

LEFT ELEVATION

FRONT ELEVATION

Large format high performance windows and doors to provide superior levels of natural light whilst minimising both solar gain and heat loss.

RIGHT ELEVATION

Bespoke glass balustrades and decking designed specifically to suit each plot

REAR ELEVATION

Solar panels among other green energy sources

All accommodation to have smart controls throughout to maximise efficiency.

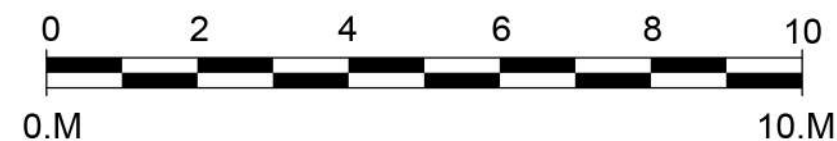

Timber skirts to units

FLOOR PLAN

Large spacious bedrooms to have movable furniture such as dressing tables, beds and beside tables. All rooms to have deep pile carpets or solid timber floors and a palette of finishes carefully selected by interior designers. The bathrooms will also be equipped with high-end fittings and decor such as free standing baths and double vanities to provide the highest level of quality for users.
