Comments: My family friend lives in the house next to this land, and our daughters play. Not a chance * I be letting my daughter play next to a lithium battery farm! Why is this being allowed to be built next to a house!! It should be miles away! The fire risk alone should be enough of a safety concern to decline this planning nevermind the wildlife it will absolutely destroy! This area is rural and loved for a reason! To allow this would be barbaric and a risk to public and property safety! Also my friends house insurance would go up if this was allowed! Why should that happen? That is so unfair. Also I was cabin crew for 7 years and have dealt with a lithium battery fire - the fire does not go out easily, it contains cells which keep burning/exploding for some time until the circuit is finished and in this case if it wasnt maintained properly could be a huge explosion *. Please consider safety above all else, consider our children.
