Submission: Objection

Comments: I wish to object. BESS in Greenbelt go against the Council comments in The Local Plan to ensure a safe and healthy environment that maintains the distinctive character of the Staffordshire Moorlands. If this type of proposal is approved the character of the area will be lost and Greenbelt will be industrialised. The dangers of BESS installations are widely acknowledged and need specialist fire prevention systems to be put in place. The amount of applications in The Staffordshire Moorlands is indicative of Energy firms desire for profit over care for the environment.
