Submission: Objection

Comments: I object to this proposal as the effect on the neighbouring properties due to extra traffic , possible fire risk and the general ugliness of the site in a greenbelt area.Noise and light pollution also has an affect with this type of installation on properties. This is a quiet greenbelt area and the proposal and other associated ones are turning it into an industrial site.These type of installations are for brown sites and its obviously due to money the applications are being put in.SMDC should stand up for our area and refuse the money grabbers.
