The Planning Officer,

Moorland House.

Leek.

Dear Sir,

I wish to object most strongly to the development of the fields in this area for the installation of solar panels and storage units. These fields are in the green belt and it is a residential area. Apparently the owners of the land have been offered enormous amounts of money to lease the land. We already have an electricity switching station in the area and several unsightly pylons not to mention the desecration of a historic windmill by a horrible telecommunication tower. Surely we have had enough. Please have pity on us. There is an official site where we can object to these proposals, but it is so complicated to fill it the authorities just hope we will give up.

The planning applications that I am objecting to are SMD /2024/0055, SMD/2024 /0019, SMD/2023/0639, SMD/2023/0639, SMD/2023/0523.

Yours sincerely.

Mrs Anne Lewis.
