Application Reference No. : SMD/2023/0568 Site Address: Cellarhead Electricity Substation Rownall Road Wetley Rocks Staffordshire ST9 OBS Comments by: Daniel Halmarack

From:
Spring cottage farm
Mill lane
Wetley rocks
Stoke on trent

Submission: Objection

Comments: I object to the expansion of the sub station. As we are well aware the expansion is in line with the other applications for the Bess (battery storage).

The buzzing noise which I can already hear from the bottom of mill lane will be made worse. It's a complete destruction of greenbelt and the wildlife will take a massive hit.

There's a lot of wildlife in the area including curlews. We have also had a lot of sightings of deer in the local area lately which haven't been seen for many of years and this will most likely be the case again if this application gets passed!

Please think about residents in and around the sub station. All these applications will provide years of destruction, traffic, noise and unnecessary destruction of wildlife.
