Submission: Objection

Comments: This is within the protected Green Belt. This is an area that is enjoyed by visitors as well as locals who walk in this beautiful landscape. This is agricultural land. I object strongly to the damage to the landscape in a rural area. I object strongly to the impact on local flora and fauna. This must not be viewed in isolation but with awareness of the cumulative impact. The impact on the mental health, quality of life and well-being of those who live in this area must be taken into account. I am concerned about noise and risk of fire. The impact on local residents living on the narrow rural roads as well as those who travel on these roads should also be taken into account. The traffic/noise during construction is of great concern. This is industrialization of green belt and is unacceptable.
