Submission: Objection

Comments: This property was initially a single storey bungalow. It has previously been developed with increased roof height with 3 first floor Dormer windows in the South West facing elevation, which face directly into my premises.

This current application proposes: 3 additional, 2nd floor, windows, each one located above each Dormer, in the South West facing elevation.

These windows, if of a type which will open, will more seriously intrude on the privacy of my premises.

The proposed window in the gable end South East facing elevation, also has line of sight of my premises and similarly, if of a type which will open, will further intrude on the privacy of my premises.

The current proposals amount to an overdevelopment of the site.
