Submission: Objection

Comments: This area is part of the protected Green Belt & should not be industrialised.

It should be looked at as part & parcel of the large solar & BESS applications that are looking to blight the area.

I am concerned about the very real & much publicised danger of a large fire & or explosion & poisonous gases & fumes that will extend over a large area putting your residents at risk & in danger.

The roads are very narrow & will impact road users including farmers & large equine users that frequent the area.

This in effect will impact the mental health & wellbeing of your residents & visitors to the area.

It will impact all the wildlife & birds that use this land as their precious habitat .
