Submission: Objection

Comments: I object to this planning application for a number of reasons. Firstly the increased number of vehicles on a residential estate with only 1 entrance or exit. I do not believe that there is sufficient space to accommodate additional traffic on this estate. Secondly, I object to the change of use from residential to business. The space where the garage was built was supposed to be a play ground for children which never materialised. Now the application intends to convert it to a business. This feels like planning by stealth. Thirdly I object to the application as it impacts on the safety of our children due to increased number of vehicles. Fourthly I object to this application because the application does not provide reassurance about the safety of the residents within the building. Finally I am appalled by the lack of consultation on a matter which has a significant impact upon existing residents. The planning application was put on the bottom of a lamp post hidden from view by weeds and a minimum amount of house owners notified. This is not the way that planning applications should be dealt with.
